- Units responded to reports of smoke inside a structure in the 700 block of Lakemoore Drive. The homeowner stated she saw fire in the upstairs bedroom, tossed water on the flame, and ran out. Personnel investigated the source and found a power strip had melted and in turn, melted a small area of the carpet. The smoke inside the residence was light but required the positive pressure ventilation fan to remove. The carpet area was saturated with water to prevent any possibility of hot spots. Once the air quality had cleared, crew advised the homeowner to contact a company for mitigation of the damage.
- Units responded to reports of a structure fire in the 6600 block of Roswell Road. The crew laid out 4" supply hose for a positive water supply and began to make an interior attack on the fire. The crew conducted a primary search with no one found. Personnel secured the utilities as well as gained access to the affected suite for ventilation use when needed. Crewmembers extinguished the fire and performed salvage and overhaul. Personnel found nothing notable regarding extension in the adjacent suites.
- Units responded to reports of a vehicle fire by the intersection of Abernathy Road and Glenlake Parkway. Upon arrival, crew opened the vehicle's hood and found the fire contained to the engine compartment. Personnel pulled a 1.75" jump line and extinguished the fire.
- Units responded to reports of people in distress on the Chattahoochee River just above Morgan Falls Dam. Upon arrival, crew made contact with the Georgia Power dam employees in order to open the gate to access the boat ramp above the dam. Crew arrived on scene and deployed the boat. Approximately 50 yards north of the dam, three adults and a dog were found floating in two inner tubes and one inflatable kayak. Personnel made contact with the victims who advised that they were uninjured and only needed assistance with getting back to the Morgan Falls Park. Crew assisted the victims back to the park.
